

CERDOMUS – Indústrias Cerâmicas, S. A.**Apartado 23, 3781-901 Avelãs de Caminho**

states that wall tiles series are monoporous, dry pressed ceramic tiles, prepared for interior wall covering, are manufactured in its industrial unit and fulfill the requirements of annex ZA, according to **EN 14411:2008** norm for system 4 in evidence of conformity and also accomplish **Directive 89/106/CE**. The products features are shown on the above table:

	Norm of Reference: EN 14411:2008, Annex L, Group BIII , GL Description: Dry pressed ceramic tiles Specific Use: Ceramic Tiles for interior wall covering	
Reaction to fire	A1 (test not required)	Decision 96/603/CE
Breaking strength	>200 N (Thickness <7,5mm) ≥600 N (Thickness ≥7,5mm)	NP EN ISO 10545-4
Rupture modulus	>12 N/mm ² (Thickness <7,5mm) >15 N/mm ² (Thickness ≥7,5mm)	NP EN ISO 10545-4
Dangerous substances emission Cadmium (Cd) and Lead (Pb) release	NPD*	NP EN ISO 10545-15
Resistance of the gluing/Adherence	NPD*	----

*NPD: 'No Performance Determined'
