

“

To improve people's health
and comfort by offering the
best indoor-air-quality
products possible for every
environment.

”

--- LightAir mission statement

We do it better!

Premium indoor air quality

- ✓ Removes harmful particles in the most efficient way
- ✓ Destroy microbes & viruses
- ✓ Highest capacity per watt, CADR/Watt

At the best comfort

- ✓ Highest capacity to lowest noise level, CADR/dB(A)
- ✓ Minimum maintenance
- ✓ Attractive design suites any environment
- ✓ 18 months long lasting EcoPrecision™ filter

LightAir CellFlow mini 100

Professional grade air purifier for your home

“The CellFlow[®] technology and the EcoPrecision[™] filter are the results of several years of research and development to deliver a robust, ultra efficient, eco-friendly and quiet clean-air solution for commercial environments.

With LightAir CellFlow[®] Mini 100 we offer a no-nonsense Home Solution derivative based on the philosophy behind the Professional Solutions. That is, the same health benefits, low cost of operation and quiet performance.”

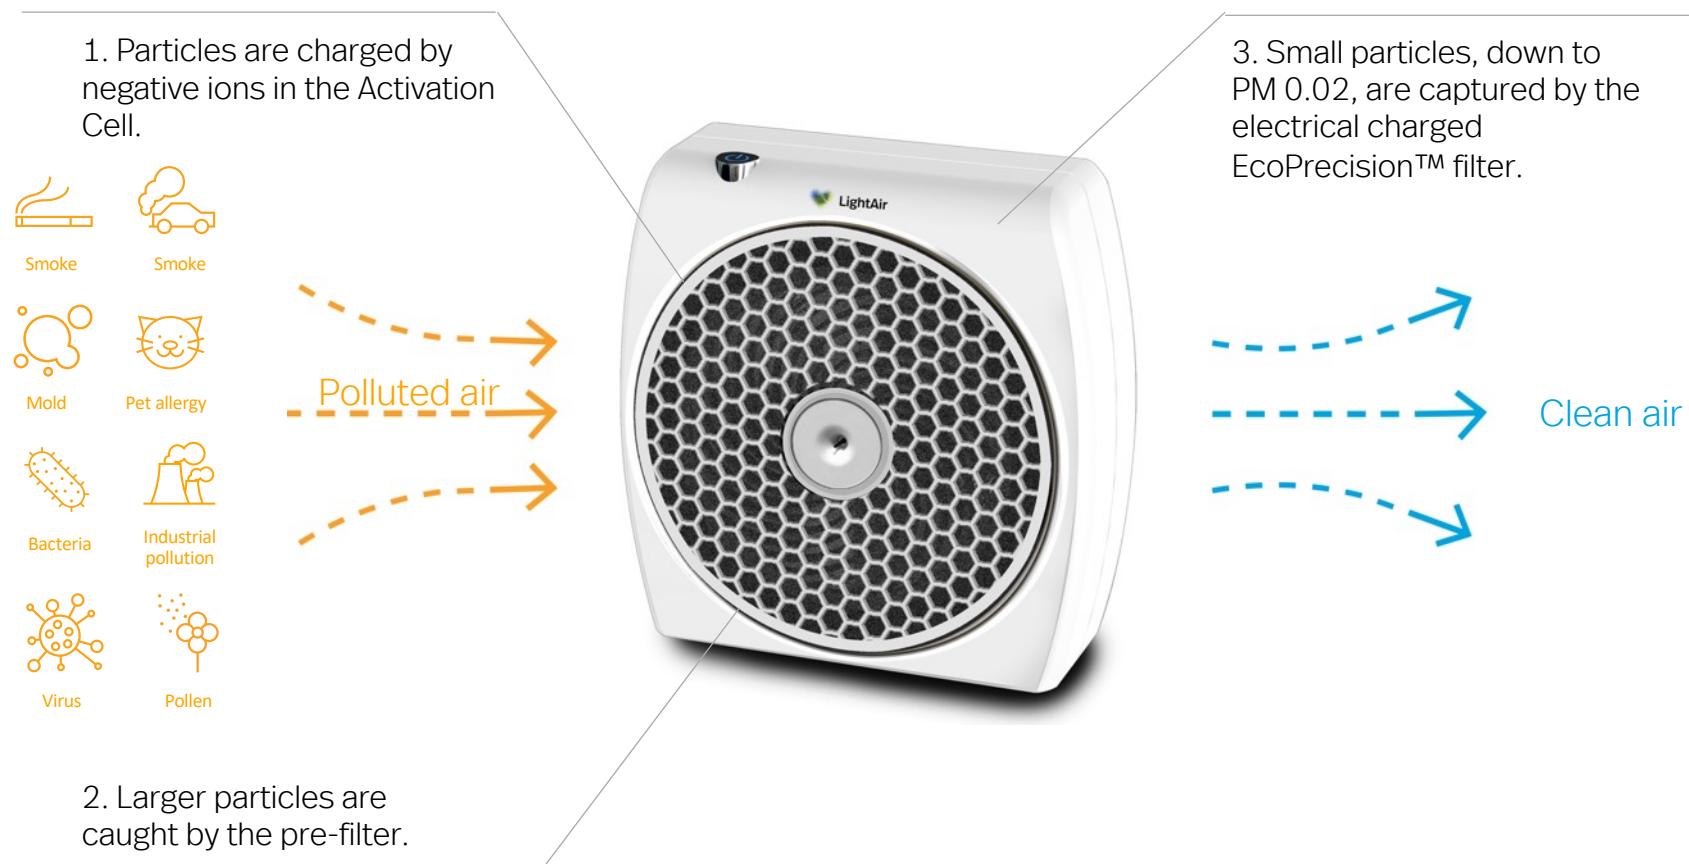

Peter Holmberg
CTO LightAir

“A single parent should be able to afford **commercial-grade air purification** in each child’s bedroom”

LightAir CellFlow Mini
The philosophy

We do it different!

- The CellFlow EcoPrecision™ filter enables efficient airflow with low noise and minimal energy consumption.
- The CellFlow EcoPrecision™ filter has a much longer life span than conventional filters, recommended to be exchanged every 18 months

And our customer loves it!

“This product is easy to use, runs very quietly and is very good quality for the price. I use it in my caravan and for small spaces it is an ideal product.”

Amazing, super quiet

Reviewed in the United Kingdom on 5 February 2021

It's made of a nice strong durable plastic that is a nice smooth white finish, its operated with a simple button push on and off, the Air Purifier is really quiet I had to check it was turned on really, several times, this was great in the bedroom, I could sleep without any issue.

Really good

Reviewed in the United Kingdom on 5 February 2021

So it does not require a lot of space but makes really big difference in air. The air feels more fresh in house. It is perfect for winter times. It cleans air from mold, bacteria, virus and more. Has two speeds.

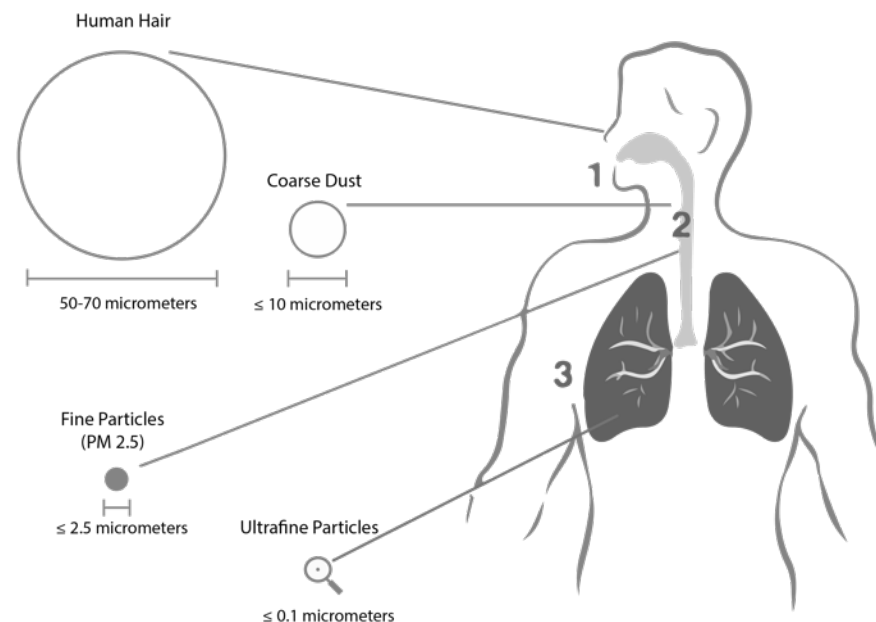

Product benefits.

It has everything you want.

99.95% fine particle reduction

Our CellFlow Mini 100 effectively takes care of up to 99.95% of particles as small as PM 0.02 and below, in other words smaller than 0.02 millionth of a millimeter. This includes particles you don't want in your indoor air such as pollen, pet allergens, bacteria, mold, traffic pollution, viruses and more.

Product benefits. It has everything you want.

Removes viruses

CellFlow Mini 100 air purifier efficiently removes virus.

Long lasting EcoPrecision™ filter

The filter is made from recycled material and is cleanable, recommended to be exchanged only every 18 months.

Whisper silent

The CellFlow air purifier will not interrupt your activities. It has 2 fan speeds to choose from and works at a maximum of 38dB.

99.94%
Ultra-fine particle
reduction

Ultra-fine partical reduction

Our CellFlow technology effectively takes care of particles as small as PM 0.02

Removes pollen, pet allergens, bacteria, mold, traffic pollution, viruses and more.

Low costs

Operates with low running costs thanks to the EcoPrecision™ filters lasting up to three times longer than conventional filters. Combined with 1/3 of energy consumption, it is best in class.

Product benefits.

It has everything you want.

CellFlow Mini 100 effectively cleans the air from the most common pollutants in a smaller room, such as a bedroom or study. CellFlow Mini 100 has a compact design for easy placement in your home and is even small enough to bring along when you travel.

Combined with low noise level, low energy consumption and low operational cost CellFlow Mini 100 ensures that you can have a perfect night's sleep – free from pollutants – no matter where you are. Cover areas up to 20 m² (215 sq ft).
