The MAXI loft ladder has got double sealing and hatch thickness 56mm, which makes them perfect for all conditions, while contributing to reducing the costs associated with heating a house or apartment. This ladder is equipped with non-slip feet, which perfectly adhere to the ground and prevent scratches on the floor surface. Our non-slip feet included in MAXI loft ladder provide an aesthetic finish for the ladder after cutting. To increase security and for comfortable use our MAXI loft ladder is also equipped with stable and durable handrail. In the interest of user convenience, the handrail has been designed in such a way that it can be mounted on the left or right side depending on customer preferences. The excellent quality of materials used for the production of stairs and attention to every details of finish cause that the stairs will satisfy even the most demanding customers. The maximum load during use is up to 160 kg.
