QUICKSET CONCRETE
READY TO USE

CHUTE FRAME - #22 - 30" x 30" - 0'2"

The diagram illustrates the assembly and use of the Quickset Concrete Form system. On the left, a bag of Quickset Concrete is shown. The main structure is a frame made of wooden planks and metal hardware, designed to hold concrete in place. The frame is shown in two states: one where it is being filled with concrete from a bucket, and another where it is being used to pour concrete into a prepared hole in the ground. A shovel is shown next to the hole, indicating the placement of the concrete. The frame is labeled 'CHUTE FRAME - #22 - 30" x 30" - 0'2"'. The concrete is shown as a solid mass within the frame, and the final result is a concrete structure in the ground.
