Self-Declaration

Wooden Materials – Traceability Requirements

(EU Timber Regulation no. 995/2010)

To whom it may concern

KRONOSPAN GmbH Lampertswalde and Kronoflooring GmbH hereby confirm that our wooden materials is purchased mainly from German sources, especially from the harvest regions Saxony, Brandenburg, Thuringia, Saxony-Anhalt and Hesse. Some wooden material is sourced internationally from Czechia and Poland. We do not knowingly purchase from untraceable supply chains or from unidentified sources.

Kronospan GmbH and Kronoflooring GmbH Lampertswalde are certified to FSC (Forest Stewardship Council) and PEFC (Programme for the Endorsement of Forest Certification Schemes) Standards.

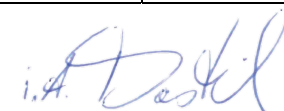

KRONOSPAN GmbH Lampertswalde works to ensure all business meets the following standards for us and our suppliers:

- The wood is not illegally harvested
- The wood is not harvested from forests / areas where high conservation value are threatened by management activities
- The wood is not harvested in violation of traditional and civil rights
- The wood is not harvested in forests being converted to plantations or non- forest use
- The wood is not harvested from where genetically modified trees are planted
- Compliance with health protection, safety at work and social affairs, of the declaration of ILO (International Labour Organisation) principles and rights at work, based (1998) is ensured by our suppliers.

The origin of wood is regularly checked via an internal risk evaluation procedure and confirmed by external audits.
