

# Attestation

On the 11<sup>th</sup> of April 2023, Eurofins Product Testing A/S received a sample of a rubber flooring with the product name:

**SBR rubber surfaces in the form of tiles, mats,  
puzzles for indoor use in gyms, fitness rooms,  
playgrounds, shooting ranges**

supplied by

**ELS POLAND SPÓŁKA Z OGRANICZONĄ  
ODPOWIEDZIALNOŚCIĄ**

The product was tested for VOC emissions according to the requirements of the French legislation (order of April 2011) concerning the labeling of construction products or coverings of walls or floors and paint and varnishes on their emissions of volatiles pollutants.

Sampling, testing and evaluation were performed according to ISO 16000 (see test report no. 392-2023-00169001\_E\_EN).

**In accordance with legislative requirements, the test results can be summarized as follows:**

\*Information sur le niveau d'émission de substances volatiles dans l'air intérieur, présentant un risque de toxicité par inhalation, sur une échelle de classe allant de A+ (très faibles émissions) à C (fortes émissions).

The product was assigned a VOC emission class without taking into account the measurement uncertainty associated with the result. As specified in French Decree no. 2011-321 of March 23, 2011, correct assignment of the VOC emission class is the sole responsibility of the party responsible for distribution of the product in the French market.
