Solidline Camp2

PRODUCT DESCRIPTION

The Solidline Camp2 is a small, practical multifunctional light at an affordable price. Whether camping, on the nightstand or as a backup light for all cases: Thanks to white light and red light LEDs, the Camp2 offers cozy illumination in a small format without blinding. Clever attachment options such as the integrated magnet and the elastic cord make it a versatile companion. The Camp2 draws its energy from three AAA batteries.

- Compact LED camping light with strong price-performance ratio
- Glare-free white light (two brightness levels) and red light (constant or flashing)
- Integrated magnet and elastic cord for flexible attachment
- Operation with three AAA batteries

FOOTNOTES

The information pertaining to scope of delivery, appearance, performance, dimensions and weight corresponds to the information available at the time of publication. In the interest of product development, we reserve the right to change scope of delivery, appearance, design and color without prior notice. Product images may vary from the actual products and may show optional accessories which can be purchased separately. Errors and omissions excepted.

1) Measurement values according to ANSI FL1 in the respective setting. If no setting is explicitly indicated, the values refer to luminous flux (lumens/lm) and lighting range (meters/m) on the highest setting, and to battery duration (hours/h) on the lowest setting. A boost function (if available) can be used several times, but only for short periods of time. If the light is equipped with (a) colored LED(s), the measurement values are given for the white light or the white LED. If the light has different energy modes, the measurement is made based on the "energy saving mode".
