Version nr 19, 24.02.2025

1. Name and address of operator of the market who issues declaration of conformity:

Guillin Polska Sp. z o.o.
56-400 Oleśnica
ul. Przemysłowa 3

2. Name and address of operator of the market who produces or imports materials or plastic products; products coming from intermediate processes of production; substances used to production of those materials and products:

Guillin Polska Sp. z o.o.
56-400 Oleśnica
ul. Przemysłowa 3

3. Reference of materials, products coming from intermediate processes of production or substances used to production of those materials and products.

PET' polyethylene terephthalate (APET , RPET) virgin siliconised film packaging and siliconised and non-siliconised ABA structure (transparent and colour)

4. Date of declaration

2025-02-24

5. Confirmation, that plastic products, substances and products coming from intermediate processes of production are meeting requirements defined in presented regulation and in regulation (WE) no 1935/2004;

6. The products referenced above contain recycled materials produced in accordance with Regulation (EU) 2022/1616. The recycled material to which this declaration applies is suitable for contact with foodstuffs, as it comes from a process that has received EFSA authorisation.

Below are the approval numbers of our suppliers:

- EFSA-Q-2009-00962
- EFSA-Q-2009-00959
- EFSA-Q-2016-00345

The EFSA registration procedure for Guillin Poland is pending and we are waiting for the numbers to be assigned.

7. Adequate information on the substances used and their degradation products, for which restrictions or requirements are specified in Annex I and II of this Regulation to allow business operators to the downstream ensuring compliance with these restrictions:

Products to which is referring this declaration, are meeting **global migration limits** according to Regulation 10/2011, in following testing conditions, and are compliant with test results.

Food simulant	Contact conditions	Migration criterias (mg/dm ²)
10% ethanol	10 days in 40°C	≤ 10
3% acetic acid	10 days in 40°C	≤ 10
olive oil	10 days in 40°C	≤ 10

Based on the declarations of raw materials producers we inform that we are using in production substances for which permitted specific limits migration SLM are determined in accordance with Annex I and II of Regulation (EU) No 10/2011: no metals and primary aromatic amines listed in Annex II of Regulation (EU) No 10/2011

8. Adequate information on substances subject to restriction in food, obtained by experimental data or theoretical calculation about the level of their specific migration and - where appropriate - purity criteria in accordance with Directives 2008/60 / EC, 95/45 / EC and 2008 / 84 / EC to enable the user of these materials and articles comply with the relevant EU rules or - in their absence - national provisions applicable to food:

No dual use additives substances were used for the production of the products to which this declaration refers to.

Products meet the requirements of Directive 94/62 on packaging and packaging waste and heavy metal content and another amending directive. The sum of the concentrations of lead (Pb), cadmium (Cd), mercury (Hg) and hexavalent chromium (Cr VI) does not exceed 100 mg / kg.

No primary aromatic amines listed in Annex II of Regulation (EU) No 10/2011.

Aromatic amines	Food simulant	Test conditions	Unit	Result	Criteria
Sum of primary aromatic amines	3% acetic acid	10 days at 60°C	mg/kg	<0,0005	≤ 0,01

9. Requirements to use of material or product:

- (i) Products made of rPET foil are intended to come into contact with any type of food,
- (ii) Usable temperature range for rPET products is from -40°C to +60°C.
The products are intended for long-term storage at room temperature or below, including heating to 50 ° C for no longer than 2 hours.

(iii) The contact surface / volume simulant 6 dm²: 1 kg of food

(iv) Recommended storage temperature -10°C to +50°C

10. If a multi-layer material or article functional barrier is used - confirmation that the material or article complies with the requirements of Art. 13 paragraph. 2, 3 and 4 or art. 14 paragraph. 2 and 3 of this Regulation:

Not applicable.

The declaration was issued on the basis of test results and based on the declarations of producers of raw materials and other materials used for production.

According to Article 15 Section. 3 Commission Regulation (EC) No 10/2011 " The written declaration shall permit an easy identification of the materials, articles or products from intermediate stages of manufacture or substances for which it is issued. It shall be renewed when substantial changes in the composition or production occur that bring about changes in the migration from the materials or articles or when new scientific data becomes available."

The company Guillin Polska Sp. o.o. as a business operator, producing products for food contact and issuing the declaration, undertakes to immediately release a new version of the declaration if such facts will take place.
