

1. IDENTIFICATION OF THE SUBSTANCE OR MIXTURE AND COMPANY

A. PRODUCT IDENTIFIER

Product Name: Olive Oil in spray

B. OTHER MEANS OF IDENTIFICATION

Synonyms	None
----------	------

C. RECOMMENDED USE OF THE CHEMICAL AND RESTRICTIONS ON USE

Recommended Use

Uses advised against No information available

2. HAZARD IDENTIFICATION

A. CLASSIFICATION

- The product is considered dangerous as it is a spray (aerosol) and contains compressed air.
- Type of risk: gas under pressure. Liquefied gas
- Class code and risk category: gas under pressure. Flammable aerosol Category 1

GHS Label elements, including precautionary statements

Emergency Overview

Signal word		Danger	
Extremely flammable aerosol			
Contains gas under pressure; may explode if heated			
 			
Appearance	Oily	Physical state	Oil Aerosol
		Odor	Oily

Precautionary Statements-Prevention

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Pressurized container: Do not pierce or burn, even after use. Do not spray on an open flame or other ignition source

Precautionary Statements-Response

None

Precautionary Statements-Storage

Protect from sunlight. Store in a well-ventilated place. Do not expose to temperatures exceeding 50°C/122°F

Precautionary Statements-Disposal

None

Hazards not otherwise classified (HNOC)

Not applicable

Unknown Toxicity

0% of the mixture consists of ingredients(s) of unknown toxicity

Other information

May cause slight eye irritation

Interactions with other chemicals

No information available

3. COMPOSITION/INFORMATION ABOUT THE COMPONENTS

Chemical description: vegetal oil obtained by extraction of just harvested fruit from the olive tree (*Olea Europaea*).

Number CAS olive oil: 8001-25-0

Number CAS air: 132259-10-0

4. FIRST AID

DESCRIPTION OF FIRST AID MEASURES

The symptoms resulting from intoxication can appear after exposition. In case of direct exposure to chemical or persistent discomfort; ask for medical attention.

By inhalation:

This product does not contain hazardous by inhalation substances;

By skin contact:

It is a product not classified as dangerous in contact with skin

By eyes contact:

Rinse eyes with abundant water for at least 15 minutes. If the person affected uses contact lenses, these should be removed if they are not stuck in the eye, otherwise the damage could be worst. In all cases, after washing, you should see a doctor as quickly as possible with the FDS of the product.

After ingestion:

It is an edible product, no show adverse effect by consumption.

MAIN SYMPTOMS AND EFFECTS, INTENSE AND SUBSEQUENT

No symptoms or delayed effects.

MEDICAL ATTENTION AND SPECIAL TREATMENT

Not relevant.

5. IN CASE OF FIRE

Extinguishing measures:

In case of inflammation as a result of handling, storage or improper use; utilize polyvalent powder extinguishers (ABC powder)

NOT RECOMMENDED to use water as an extinguishing agent.

Specific hazards:

As a result of combustion or thermal decomposition reaction, reaction derivatives are generated (CO₂, CO, NO_x ...) which can be highly toxic, and therefore may be a high health risk.

Advices for the personal:

Depending on the magnitude of the fire it may be necessary to use full protective clothing and SCBA. Have a minimum of emergency facilities or elements (fire blankets, portable first aid kit ...)

6. ACCIDENTAL RELEASE MEASURES

Protective measures for people: Not relevant. Stop leak if you can do it without risk

Measures to protect the environment: The product should not be poured without previous treatment (purification system).

Methods for cleaning/collecting: Pick up by vacuuming or absorbent products.

7. HANDLING AND STORAGE

HANDLING:

Use the product according to the recommendation and only for the purposes for which it is intended. Read the label carefully before using. No smoking.

STORAGE:

Keep the container at room temperature and away from sunlight. Do not expose to temperatures exceeding 50 °C/122°F. Do not pierce or burn even after use. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep out of reach of children.

INCOMPATIBLE PRODUCTS:

None known based on information supplied

SPECIFIC USE:

Spray at a distance of 20 cm.

8. EXPOSURE CONTROL/PERSONAL PROTECTION

CONTROL PARAMETERS: Not applicable.

EXPOSURE CONTROL:

Personal protective equipment: No need of any special protection.

Respiratory protection: No need of any special protection.

Hands protection: No need of any special protection.

Eyes protection: No need of any special protection.

General safety and hygiene measures: No need of any special protection.

9. PHYSIC AND CHEMICAL PROPERTY

Form: Light liquid.

Color: Yellow or greenish

Smell: Characteristic.

Solubility: slightly soluble in alcohol, miscible in chloroform, ether and petroleum ether.

Relative density: 0.916 g/ml

10. STABILITY AND REACTIVITY

Reactivity:

No hazardous reactions are expected if the technical instructions of storage of chemicals products are followed. See point 7.

Chemical stability:

Chemically stable under the storage, handling and use conditions.

Dangerous reactions:

Under the mentioned conditions, no hazardous reactions are expected to produce any reaction. May explode when overheated.

Avoid conditions:

Handling and storage at room temperature.

Incompatible materials:

Avoid the contact with combustible materials.

Descomposition products:

No decomposition products if the product is stored in conditions appropriated.

11. TOXICOLOGICAL INFORMATION

Not apply. Edible product

12. ECOLOGICAL INFORMATION

Bioaccumulation: Data unknown.

Organic and insoluble-water substance.

Accidental spilled into surfaces water may cause damage in aquatic life as a consequence of temporary rising of COD and BOD.

Measures to protect the environment: the product should not be poured without previous treatment (purification system).

13. RELATIVE CONSIDERATION TO ELIMINATION

Product disposal: Must be specially treated respect the local valid regulations.

Disposal of used and empty packaging: According to the national legislation as household waste. Do not burn or bury the bottle.

14. TRANSPORT INFORMATION

Special information:

Product has to be transported in its original sealed container and secure-loaded, so that drops, bumps and spills are avoided.

TRANSPORT BY RAIL OR ROAD (DOT):

Risk Class: 2, Aerosol, Small containers containing gases, and air compressed.

UN Number= 1950- Aerosol.

Division: 2.1 - Flammable aerosol, non-toxic.

LQ Category: Dangerous in limited quantities package.

The pictogram below, related to dangerous package in limited quantities, must appear on the packaging without further information.

this pictogram in two opposite sides

AIR TRANSPORTATION (ICAO / IATA):

Risk class: 2 – Gas.

Division: 2.1 –Flammable aerosol, non-toxic.

UN Number = 1950 – Aerosols.

LQ Category: Dangerous package in limited quantities.

The packaging must be marked clearly visible, without further information, the pictogram are:

SEA TRANSPORTATION (IMDG-Code):

Risk class: 2 – Gas.

Division: 2.1 – Flammable aerosol, non-toxic.

UN number= 1950 – Aerosols.

LQ Category: Dangerous package in limited quantities.

The packaging must be marked clearly visible, without further information, the pictogram is related with dangerous package in limited quantities.

this pictogram in two opposite sides

The aerosol contains a marine pollutant, olive oil

15. REGULATORY INFORMATION

The safety data complies with the requirements of Regulation (EC) N° 1907/2006.

16. ADITIONAL INFORMATION

WORD OF WARNING

Do not spray on heated surfaces or near open flame. Never spray directly into oven. Can may burst if left on stove or near heat source. Avoid spraying in eyes. Contents under pressure. Do not puncture or incinerate. Do not store above 120 °F. Keep out of reach children

Product flammable

The information contained in this safety data is based on our present knowledge. It describes the security measures in the manipulation of this product and it does not represent a guarantee of the properties described in it.
